**Please note that the following four points below (#2 through 5) all require a response.**

### 2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The Maine State Library uses the two largest public libraries in the state to help extend statewide library resources – Bangor Public Library in the north and Portland Public Library in the south. These libraries serve in the capacity as Area Reference and Resource Centers (ARRCS), which is governed under Maine statute, Title 27. ARRCS help to extend statewide library resources by providing interlibrary loan services, responding to reference questions, and issuing library cards to citizens outside of their legal service area.

### 3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

The statutory model in Title 27 requires that the Maine State Library leverage its statewide resources through ARRC libraries in the state. Utilizing the Bangor Public Library as the northern region's ARRC helps to extend statewide library resources in the most efficient manner possible, given its expertise, staff size and collection.

**4. Cost**

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

Costs are determined based on the ARRC library's (Bangor Public Library) ability to carry out resource sharing initiatives among libraries in northern Maine. Such costs consider the number of interlibrary loan transactions and costs, number of borrower cards issued to residents outside of Bangor Public Library's service area, and reference questions answered.

**5. Future Competition**

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The Maine State Library always looks at the ability to use public libraries to facilitate ARRC resources. Currently, the Bangor Public Library, in accordance with statute, is the only public library in northern Maine able to fulfill such responsibilities.

**Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.**

**6. Uniqueness**

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The purpose of fulfilling the role of an ARRC is to extend statewide library resources in geographic areas. The Bangor Public Library is the only equipped public library institution in northern Maine able to provide ARRC resources at this time.

**7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)**

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
