State of Maine Waiver of Competitive Bidding Request Form

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

DHHS Maine CDC Breast and Cervical Health Program (MBCHP) works to increase access to medically recommended breast and cervical cancer screening and follow-up services by Maine residents. The Department will partner with the Provider on a health system Evidence Based Intervention (EBI) project to increase breast and cervical cancer screening rates.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

Currently, the vendor is the only regional health organization with the capacity to deliver these specific services that have a priority population. This provider covers Western Maine District 3 which covers Franklin, Oxford, and Androscoggin counties within the geographic and public health district location. Sufficient staffing, resources or expertise do not exist in State of Maine government or any other governmental entity to perform this service.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The cost assigned are fair and appropriate for the proposed scope of work. The Department considers the negotiated costs reasonable based on the level of effort proposed by the Provider.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

This is a proprietary system. Opportunities for competitive bidding would occur when and if changes to the services are required. The Department does not intend to RFP these services.

Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The vendor developed the proprietary Health Systems EBI Implementation plan for this specific public health region in concert with the Department under CD3-18-4531. That work continued under CD3-19-4531. The scope of work is confined to the Western Maine District 3 which covers Franklin, Oxford, and Androscoggin counties within the geographic and public health district location. This vendor has developed relationships with the Public Health District Council partners and has proprietary systems to provide these services to this area.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
