Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

A prior amendment extended services through June 30, 2019, however, the cost estimate provided at that time ended up falling a little short. This amendment will add \$20,000 to the contract total while MDOC and the Provider iron out final technical specifications for the new contract beginning July 1, 2019.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

CORIS is custom built offender management software solution. The Department knows of no other Maine State Agency, or other governmental agency, that has an adequate knowledge base of the Departmental business or the software solution to be able to meet the requirements of this contract.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The rates set forth in this amendment are consistent with rates this provider has charged under the existing contract which the Department considers to be fair and reasonable.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

At this point in time the Department does not feel that there will be future opportunities for competition for this particular service. The Department has had a very successful thirteen-year relationship with this vendor and the vendor has an exceptional understanding of Department business requirements and operations. To replace the business operations knowledge and system knowledge by another outside vendor would not be cost effective.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The vendor has an intimate knowledge of department business requirements and knows the CORIS offender management system (OMS) inside and out as they initially developed the system. The system is highly customized and utilizes proprietary code and data sets.

The Department has enjoyed a very successful relationship with this vendor over the last 17 years, the result of which is an intricate and highly functional OMS database tailored to meet the Department's needs.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
