### PART III: SUPPLEMENTAL INFORMATION

Please respond to ALL of the following:

**1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.**

T11-579's cab floor, crossmembers on right side and rear cab sill were rusted beyond repair and needed to be replaced. Repairs totaling \$9,754.53 were completed on this 2010 patrol truck. The decision to move forward with these repairs was made consistent with Maine DOT Fleet Management's guidance considering the vehicles age, mileage, and anticipated replacement schedule. The estimated replacement cost for this vehicle is \$188,000.00. This unit is not currently on the replacement schedule. The decision to use a commercial repair facility was made after careful consideration of the availability and expertise of Department personnel and the

operational need to get the equipment back in service.

#### 2. Provide a brief justification for the selected vendor to supplement the response in Part II.

This work could not be completed in-house, the Fleet Augusta facility does not have technicians trained in this type of repair. The magnitude of this repair was considered, and the logical decision was to send this unit to the vendor who has the expertise, knowledge and experience required for this work.

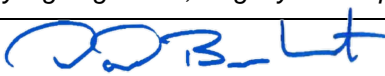

#### 3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

Cliff's Heavy Truck Painting and Blasting has done work for the Department in the past with blast and paint contracts they have also done other cab repair work for MaineDOT. The rates quoted for this work are in line and comparable with the rates for other contracted services provided by this vendor.

#### 4. Describe the plan for future competition for the goods or services.

If we could convince more heavy truck and equipment body, paint blast facilities to move into more locations in the state it would potentially foster better competition.
