Please respond to ALL of the questions in the following sections.

PART III: SUPPLEMENTAL INFORMATION

1.

T37-1094 is a stainless-steel dump body. As part of the on-going deployment of new snowplow trucks, MaineDOT determined it would be more cost effective to refurbish and continue to use previously purchased truck bodies. Given the price volatility of new equipment, Fleet Services determined refurbishing would not only prolong the life of equipment already in place, but also provide the Department with a cost savings.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

The Fleet Augusta Fab shop was too busy to take this task on. The vendor for this work was able to work it in and has trained technicians.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

The labor and parts rates for the body refurbished are comparable to the other installation services currently under contract with his vendor. A cost proposal was provided to Fleet Services for review and approval was given for the work to be done.

4. Describe the plan for future competition for the goods or services.

Fleet Services will continue to utilize the complete bidding RFP process when new trucks and plow gear are scheduled to be purchased.

PART IV: AMERICAN RESCUE PLAN ACT (ARPA) / MAINE JOBS & RECOVERY PLAN (MJRP)

Does this request utilize ARPA/MJRP funds?

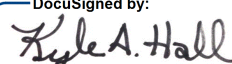

Yes – If Yes, please attach the approved Business Case(s).
