Please note that the following four points below (#2 through 5) <u>all</u> require a response.	
2. Description of Specific Need	
Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.	
<p>Progress Software is the core database and middleware software used by the Workers Compensation Bureau. This purchase is for annual support and maintenance for Progress database software. Software support is required to maintain the system at the latest patch, security and function release. In the last year, the State Department of Labor discontinued use of Progress. The State has reviewed software license usage, after the departure of DOL, and has adjusted the support service agreement accordingly.</p>	
3. Availability of other Public Resources	
Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

Not Applicable. Standard Commercial Off the Shelf computer software product. The State does not have software source code rights.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The costs were quoted by Progress. Software support is not available through the State software reseller, SHI. This software support renewal is less expensive than last year as the Unemployment Tax application has been moved to the Mississippi, Rhode Island, Maine, Connecticut consortium (ReEmployME) in November 2018. The state is conducting regular software audits to confirm that it is sizing the license support levels appropriately (most recently in June 2019). The annual cost of support has declined from \$54,567 to \$34,805 to \$24,618.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

NA – The State is gradually exiting this software

Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The software identified is required to maintain support on the critical Workers Compensation applications. Software support and proper licensing of the software is essential to assure continued operational support and security of the applications.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
