	D. It appears to be in the best interest of the State to negotiate for the procurement of petroleum products;	
	E. The purchase is part of a cooperative project between the State and the University of Maine System, the Maine Community College System, the Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State involving: (1) An activity assisting a state agency and enhancing the ability of the university system, community college system, Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State to fulfill its mission of teaching, research, and public service; (2) A sharing of project responsibilities and, when appropriate, costs;

X	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:	32 MRS Ch 2-B § 86.2-A

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need
Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

EMS providers are required by statute (32 MRS Chapter 2-B, § 86.2-A) to follow protocols as developed by Maine EMS. These protocols were previously provided in printed format; however, as a cost-saving initiative, MEMS converted to an electronic format and no longer prints hard copies of the protocols. In 2013, MEMS negotiated with an app developer to create electronic copies of the protocols for iOS and Android operating systems. These apps are provided at no charge to EMS providers.

This contract is to maintain the apps, updating content as needed, and keeping them functioning properly as new operating systems and devices emerge.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

This is a customized program. As such, technical support for maintenance and upgrades is not available within DPS or OIT.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The cost was negotiated with the vendor and is lower than typical support fees because the vendor is also providing a similar service for other New England states.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The opportunity to do something different is considered on a case-by-case basis with every contract.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

This app developer is providing similar services to other New England states and to other EMS systems around the country. The principal programmer is an experienced paramedic who has demonstrated an ability to produce a high quality app, and keep it updated in a rapidly changing technological environment.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
