	G. The procurement of goods or services involves expenditures of \$10,000 or less, and procurement from a single source is the most economical, effective and appropriate means of fulfilling a demonstrated need.	
	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:	

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non- competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The services provided under this agreement are integral to the health and well-being of a client who is slated to move into a PNMI facility. This client has an ostomy due to self-injurious behaviors. The contracted agency will provide skilled nursing and ostomy wound care for the next 90 days. The client is currently at MaineGeneral and will be unable to reside in the community without this service in place.

Paragraph 93 of the Bates Consent Decree states that DHHS "shall fund, develop, recruit and support a variety of housing options, which can accommodate varying levels of supportive assistance to clients, according to client need. Some class members will live independently". The Decree also states that "others will need to live out of home in more restrictive environments which are fully staff supported". Finally, paragraph 32 of the Decree states that "Non-Class Members shall not be deprived services solely upon the basis they are not members of the plaintiff's class".

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

Over thirty (30) other vendors were called and this was the only provider, who could provide wound care for a 90 days period to a client with a severe mental illness. The agency employs RN and LPNs. These credentials are beneficial when considering the amount of wound care that is required and the consequences should the wound not be properly observed.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The cost per day of skilled nursing care is based on the MaineCare rates.

This client requires a single room, so DHHS needs to provide reimbursement for the difference between the cost of a single room and double room occupancy. The additional cost for single occupancy is \$17.50 per day.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

This service is not anticipated to exceed a six-month period. The goal is to discontinue to the service, once the client's wound is fully healed.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

Over thirty (30) other vendors were called and this was the only provider, who could provide wound care in a skilled nursing facility. The agency employs RN and LPNs. These credentials are beneficial when considering the amount of wound care that is required and the consequences should the wound not be properly observed.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

The client has been residing at MaineGeneral and will not be able to be discharged until this service is in place.
