3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

ConnectME grants are provided to Internet Service providers, who have qualified telecommunication engineers to design and build a fiber network to connect this community to the internet.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

Costs are based on the number of homes served and the miles of road required to reach those homes. Additional funds are provided by the ISP to ensure a cost-effective project.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The cost structure of building a network to serve rural areas that have large distances and low population means competition is not feasible.

**State of Maine
Waiver of Competitive Bidding Request Form**

Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

Each area of the state has its own challenges in terms of who the current service provider is and identifying how to expand that service. Providing funds to gather this type of information has to be an organization that is familiar with the area and the current level of service that might be in that area.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
