competitive procurement, please provide that reference here:	through grant via an Open Project Selection Process
--	---

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non- competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

This is a pass-through grant under the Land and Water Conservation Fund Program (LWCF), a federal program administered by the Bureau of Parks and Lands. Applications for the grant are assessed via a Federally required Open Project Selection Process in which the grant applications are scored independently by a panel of recreation professionals. Then all scores are tabulated, and projects are ranked to determine grant recipients. Failure to approve this contract will result in the project not being completed and the potential loss of Federal funds.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

Applicants by Federal rule are limited to sub-governmental units; state, county, municipal, and tribal governments and school districts. The funding provides up to 50% of eligible project costs for development and or acquisition of outdoor recreation areas owned by those governmental units or sub units for the benefit of all in perpetuity. It is not work that can be performed by anyone other than the grant recipient.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

Grant applicants must submit a proposed project budget which is scrutinized as part of the selection process for feasibility. Once awarded funding, applicants must adhere to strict fiscal standards and guidelines requiring competitive quotes for contracts of \$5,000 or more and competitive bids for contracts of \$10,000 or more to assure best value.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

We are limited in our capacity beyond that which has already been described.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The National Parks Service has awarded to The Town of Bristol, through State of Maine, a project agreement with an effective date of June 01, 2019 through September 30, 2021, via a grant application and Open Project Selection Process.

The objective of this Agreement is to assist the Town of Bristol in replacing the existing beach pavilion that has outlived its useful lifespan. The Town of Bristol will construct a new pavilion that will provide a beach rental booth, restrooms, showers, ticket booth, walk-up snack bar, office and storage area. The intention of this project is to replace the existing deteriorated non-ADA compliant structure with an updated modernized ADA compliant facility. The new building will be located out of the flood plain and dune restoration will be a focus to protect the building and surrounding grounds. The design of the building intends to increase the connection to the outdoors by creating a variety of spaces with natural lighting and natural ventilation but also provide more capacity to support outdoor recreation.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

Signature of requesting Department's Commissioner or Chief Executive (or designee within the Commissioner's Office):
