Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Emergency replacement of facility cooling system. The roof top air handler has been inspected and determined that the compressor needs to be upgraded. This unit is for our medical area and with summer heat this area if overheating and in need of cooling air.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

We do not have the expertise or manpower to perform this function.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The compressor is part of the Trane HVAC system which is the same as the many other roof top units in this facility.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

This is a Trane system and proprietary to them.

Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

With the HVAC not in operation in medical area it is overheating and becoming a life safety issue. This work needs to be done asap.
