Please respond to ALL of the questions in the following sections.

PART III: SUPPLEMENTAL INFORMATION

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

The DHHS Office of MaineCare Services (OMS) is required to implement program changes to comply with ongoing CMS requirements. These program changes will require OMS to update systems and business processes, as necessary, to comply with CMS requirements for a certified system. The services provided will include User Acceptance Testing support for required MIMHS enhancements. These services are critical and essential to comply with federal requirements and support ongoing agency responsibilities.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

Deloitte's staff performs testing services of system enhancements and Federally-mandated changes to the State's MIHMS system (operated by Gainwell Technologies). These testers have specific knowledge of the MIHMS application, Gainwell processes, and OMS systems that integrate with MIHMS, and support projects that receive enhanced Federal matching funds.

A lack of proper testing can disrupt operations as well as interactions with both members and providers. This work requires specific knowledge of the State's MIHMS application and training a new provider will result in project delays and increased costs. The Department is continuously evaluating vendor options and is asking Deloitte to use all available internal and external resources, including leveraging any work done by Gainwell, to further manage costs and maximize value. The IT Staff Augmentation Master Agreement will continue to be utilized for those services that do not require this level of MIHMS-related expertise.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

The Department has considerable knowledge of rates for testers based on current and past testing contracts. Deloitte's rate for testers is \$110-\$115 per hour, while rates for similar testers currently under contract by the State range from \$90.70 to \$114.90 per hour. The Department has worked carefully with Deloitte to refine the scope and associated fees for this project.

4. Describe the plan for future competition for the goods or services.

The Department does not intend to RFP these services at this time. The IT Staff Augmentation Master Agreement will continue to be utilized for those services that do not require this level of MIHMS-related expertise.
