Please respond to ALL of the questions in the following sections.

### PART III: SUPPLEMENTAL INFORMATION

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

Plow truck 11-585 had catastrophic engine failure, a connecting rod broke causing it to go through the side of the engine block creating a nonrepairable hole in the engine block. Dealer replaced engine. Repairs totaling \$32,755.09 where made. The decision to move forward with these repairs was made consistent with Maine DOT Fleet Management's guidance considering the vehicle's age, mileage, and anticipated replacement schedule. The estimated replacement cost for this vehicle is \$188,00.00. The decision to use a commercial repair facility was made after careful consideration of the availability and expertise of Department personnel and the operational need to get the equipment back in service.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

The Fleet Augusta heavy shop was busy and is down 3 Tech's. The vendor for this work was able to work it in and has International trained technicians along with all the special tools for the repair and replacement of the parts associated with this issue. The magnitude of this repair was considered, and the logical decision was to send this unit to the dealer. Also by having the dealer do this repair we have a 2 year parts and labor warranty for this engine.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

Daigle & Houghton (Allegiance) is an International dealer we have had work done there in the past and when compared with the other International dealer their rates were the same or in some cases a little cheaper. They are able too efficiently and cost effectively do a repair of this significance. This repair would not have been something the department could have cost effectively done and completed in a timely manner.

4. Describe the plan for future competition for the goods or services.

If we could convince more International truck dealers and service facilities to move into more locations in the state it would potentially foster better competition.
