Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The State of Maine Military Bureau has a primary power generator that provides emergency backup power for critical facilities located on the Camp Keyes Training Site. This generator provides 4160 volt power, this is voltage equivalent to the power lines serving the facility. The extreme high voltage has resulted in limited entities able to work on this generator. In addition to the high voltage requirement there is proprietary Caterpillar Software and diagnostic equipment need to repair this generator. This generator is critical equipment required for emergency backup of key portions of National Guard operations. In short there is only one cat dealer whom we presently have under contract for maintenance and they are the only company that we could find with the qualifications to do the required repairs.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

The Department does not have the staff that is trained, or qualified to properly replace the required equipment.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Cost is a direct cost from the manufacturer for all parts to include shipping. The installation, programming, testing, and warranty cost look to be consistent with previous jobs regarding similar projects

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

At this time only Milton Cat who we presently have under contract for maintenance and they are the only company that we could find with the qualifications to do the required repairs.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

This generator provides 4160 volt power, this is voltage equivalent to the power lines serving the facility. The extreme high voltage has resulted in limited entities able to work on this generator. In addition to the high voltage requirement there is proprietary Caterpillar Software and diagnostic equipment need to repair this generator.

Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
