	State from only one source;
	D. It appears to be in the best interest of the State to negotiate for the procurement of petroleum products;
	E. The purchase is part of a cooperative project between the State and the University of Maine System, the Maine Community College System, the Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State involving: <ol style="list-style-type: none"> (1) An activity assisting a state agency and enhancing the ability of the university system, community college system, Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State to fulfill its mission of teaching, research, and public service; (2) A sharing of project responsibilities and, when appropriate, costs;
	<i>If citing the above justification for this sole source request, please note that the specific approval of the Governor's Office is required, in accordance with Executive Order 26 FY 11/12, "An Order to Enhance Competitive Bidding". 	G. The procurement of goods or services involves expenditures of \$10,000 or less, and procurement from a single source is the most economical, effective and appropriate means of fulfilling a demonstrated need.
	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Department of Marine Resources maintains a 250 ton hermetic screw liquid chiller, along with four pumps to provide AC throughout the facility. A two inch sea water distribution line burst, taking out all four motor starters.

Oberuch Electric familiarity with the Departments infrastructure enabled them to cannibalize components from other sources to get two of the four pumps operational, enabling the Department to continue providing AC to the facility.

With high electrical voltage in such proximity to a water source it will be necessary to install "all weather proof" components.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

None. With Oberuch's familiarity with the departments infrastructure it enabled the vendor to quickly resolve the issue and allow the Department of Marine Resources to continue operation with minimal impact to the occupants.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

Oberuch Electric has been utilized as the department primary resource for all electrical needs. Their pricing has been comparable from year to year. For this reason, as well as equipment familiarity no other quotes have been obtained.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

This is the results of an unforeseen circumstance. The Department of Marine Resources will continue to utilize the vendor as their primary source for all electrical needs. The vendors familiarity with the department electrical needs enables a quick response, thus minimizing any unnecessary down time and expense.

Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

This is based on an existing emergency that requires immediate action in order to continue providing AC to the department.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

This is of an emergency nature and if not rectified immediately could potentially pose a safety issue to the maintenance staff in the event this junction/breaker box needed to be reset.

Vendors familiarity with the situation at hand and the immediate solution to remedy this electrical issue, along with the vendor's proximity to the department would resolve the issue in a quick and timely fashion.

Signature of requesting Department's Commissioner or Chief Executive (or designee within the Commissioner's Office):	<i>By signing below, I signify that my Department requests, and I approve of, this Waiver of Competitive Bidding.</i>
