	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need
 Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Sales and use tax audits of large multinational retailers involve large data sets. Auditors are required to refine data and sample transaction level detail to test for compliance with Maine tax statutes. This training course is designed specifically for sales and use tax audit staff and provides participants with the skills necessary to conduct a statistical sample and an understanding of basic statistical sampling theory as it relates to sales and use tax audits. When the course is completed the auditor will be able to apply the basic principles and conduct a statistical sample. Appropriate use of sampling techniques contributes to reduced audit cost and improved audit results.

3. Availability of other Public Resources
 Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

The Multistate Tax Commission is the only entity known to provide training targeted specifically to state sales and use tax audit staff.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The department considered sending staff to MTC training hosted by other states. After computing the cost of tuition along with associated travel costs, it was determined that bringing MTC trainers to Maine and hosting a training allowed for training more staff at a reduced cost.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

Currently this option does not exist.

Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The Multistate Tax Commission has trainers, course materials, and sampling software unique to sales and use tax auditing. Their staff has conducted audits on behalf of other state revenue departments and can speak to the unique challenges associated with auditing multinational concerns for sales and use tax compliance.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
