PART III: SUPPLEMENTAL INFORMATION

Strivven will provide 1020 "seats" of Virtual Job Shadow. The seats allow VR counselors to provide an enhanced delivery of pre-employment transition services and general VR guidance and counseling to VR applicants. VJS can be delivered remotely or face to face. The VJS website will assist in developing the comprehensive needs of services and aid in the development of the Individualized Plan of Employment to secure, retain, and advance in employment. Strivven Media will create separate portals for each office (Lewiston, Augusta, Portland, Bangor) to manage. Strivven Media will provide support and training when needed and accept feedback from VR staff. Six gates will be created to house Career Exploration Workshop (4) and Transition Career Exploration Workshop/Job Club (2).

2. Provide a brief justification for the selected vendor to supplement the response in Part II.

The continuation of hybrid meetings allows counselors to use VJS through zoom or in-person. The VJS allows for career exploration, career pathways and individualized employment goals as well as meeting many of the 5 Pre-Employment Transition Services.

Strivven Media's website incorporates the ability to do individual and group career exploration. The website allows VR counselors to customize lesson activities; there are over 1,000 job shadow and career advice videos; client can develop a career portfolio; links to college/training opportunities; resume builder and complete multiple career interest inventories. Once the person has completed all activities the information is downloaded and frees the seat for the next person.

The website can be utilized for group workshops, allowing the VR Counselor and school staff to coordinate activities and supplement face-to-face lessons.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

The cost for each seat is \$17.60 and can be used multiple times through the contract year. VR serves over 5,000 disabled Maine citizens a year. Transition students make up 40% of VR clients. WIOA requires VR to spend 15% of the budget on Pre-Employment Transition services. The Virtual Job Shadow is one tool that VR Counselors can use with transition students to assist them in exploring career options, interests and explore post-secondary opportunities.

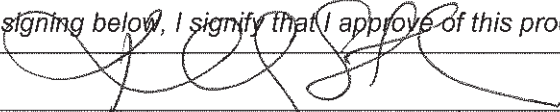

4. Describe the plan for future competition for the goods or services.
