**4. Cost**

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Boating Program has extensive experience in the development and renovation of boating facilities across Maine. Using all available cost data we are able to develop accurate cost estimates for the scope of work to be completed.

**5. Future Competition**

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The Boating Facilities Program currently manages a yearly competitive grant program where applicants submit requests for funding which are rated and scored for approval by Department employees. This Project was chosen as part of the competitive grant process.

**Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.**

**6. Uniqueness**

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The property is owned by the Town of Denmark, who has been working with an engineer to determine renovation needs at the facility. The town will continue to be responsible for maintenance of the site once work is complete. The grant application provided by the Town was approved for funding as part of the Boating Facilities Fund grant.

**7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)**

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
