The internal staffing is not trained nor certified to resolve issues that pertain to the inner workings of enterprise printers or provide the software engineering knowledge that would be required to service and maintain the print server (Rochester Software Associates). RSA software is a licensed off the shelf software product.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

There has been no change in cost over the past two years. This price is unchanged. Ricoh pricing is 2% less than use of a software reseller.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

RSA file and workflow routing for print services is an integral part of the OIT high-speed print infrastructure. The RSA print routing service will be considered for replacement when the high-speed print architecture is changed.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

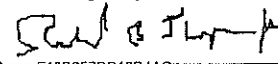

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

This vendor specializes in Enterprise Print Services and provides and supports the RSA software necessary to deliver the print services, assuring the system is supported and functions in a timely manner. The vendor assures all needed security updates/patches are made to the system to maintain system security.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
