If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:

**Please note that the following four points below (#2 through 5) all require a response.**

## 2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Evaluation and performance measurement activities including data collection is a major piece of the SAMHSA-Grant, Maine-AWARE. It was necessary for the evaluator for this grant to be part of the application process and chosen quickly due to the short turn-around time from the Notice of Funding Opportunity from SAMHSA and the grant application submission date. Pat Hart Consulting has over 29 years of experience evaluating federally funded state-local partnerships that are focused on promoting healthy behaviors, improving mental health, and chronic disease management in schools and communities.

## 3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

Staffing and expertise related to these services currently do not exist within state government or other public resources. In determining this, the Department communicated with other state departments (OCFS, Maine CDC) that share in similar work and would most likely have the need for services such as this.

## 4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Department determined that the cost of these services is fair and reasonable considering the scope of work that is required. Using the Contract Awarded labor Category tool that is used to assist federal contract officers find appropriate prices for contract, we found that the proposed contract with Hart Consulting is in alignment with national rates.

## 5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The Department will continue to follow the SAMHSA Grant, Maine-AWARE requirements over the five years of the grant. In a future project, the Department will obtain services by the most appropriate means, including a competitive process such as releasing a RFP, if possible.

**Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.**

**6. Uniqueness**

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

It was necessary to choose our contractor prior to submitting our federal grant application. Hart Consulting, Inc was selected based on their experience working on projects relating to school health and familiarity with Maine schools.

**7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)**

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
