**Please note that the following four points below (#2 through 5) all require a response.**

**2. Description of Specific Need**  
Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

New England and Municipal Resource Center, Ltd (NEMRC) developed this proprietary application which is a property appraisal system. The system calculates, assesses and stores values of properties maintained in the Unorganized Territory. The bureau has contracted with NEMRC for the past several years to maintain the appraisal system.

**3. Availability of other Public Resources**  
Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

The software code is proprietary in nature. Neither the bureau nor the state's information technology group has the manpower or expertise to maintain this system.

**4. Cost**

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The annual license/support charge is within guidelines for previous license/support charges for the MicroSolve support software.

**5. Future Competition**

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

MRS has recently gone through the RFP process and is currently working on drafting a contract with the winner of the RFP. It is necessary to maintain the current system because the transition to the new system is labor intensive, requiring 21,000 real estate accounts to be reviewed and reentered into the new system, while at the same time staff dedicated to the Unorganized Territory are reviewing between 4,500 and 5,500 parcels.

**Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.**

**6. Uniqueness**

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

**7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)**

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

Information provided to taxpayers from the property tax system may prove to be incorrect if system updates are not performed on an annual basis. It is critical that services to the taxpayer remain uninterrupted. Delay in the payment of this proprietary software license/support fee will hinder the bureau’s ability to provide the public with reliable services.
