If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

- a. This agreement is for the Radox Evidence Analyzer used in the identification of drugs related to OUI cases. This maintenance agreements ensured the instrument is in working order and provides service should the instrument not be in proper working order.
- b. The laboratory determined this service to be critical due to the nature of the work and accreditation requirements (ASCLD/LAB) that quality system and analytical instrumentation used in the analysis of forensic samples meet the standards established by ASCLD/LAB. Laboratory staff at HETL are not skilled in the repair of this type of instrument.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

The instrument covered under this maintenance agreement is highly technical. It has advanced electronic and computer components that require specific training and experience to troubleshoot and repair. The staff at HETL are not trained to service the system's product, applications and software.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

There are no other available vendors qualified to service Radox instruments, and there is no change in the cost as compared to last year's agreement.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The maintenance of instruments used in the laboratory to acquire data must be conducted by a representative familiar with the system product, applications and software. Currently the system used in the HETL is a Radox system and therefore needs to be serviced by qualified Radox representatives.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date).
