| | State from only one source; |
| | D. It appears to be in the best interest of the State to negotiate for the procurement of petroleum products; |
| | E. The purchase is part of a cooperative project between the State and the University of Maine System, the Maine Community College System, the Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State involving: (1) An activity assisting a state agency and enhancing the ability of the university system, community college system, Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State to fulfill its mission of teaching, research, and public service; (2) A sharing of project responsibilities and, when appropriate, costs; |
| | <i>If citing the above justification for this sole source request, please note that the specific approval of the Governor's Office is required, in accordance with Executive Order 26 FY 11/12, "An Order to Enhance Competitive Bidding". The approval must be documented on DAFS/BGS/Division of Procurement Services "GOVCOOP" form, found here: http://www.maine.gov/purchases/info/forms/govcoop.doc.</i> |
| | F. The procurement of goods or services involves expenditures of \$10,000 or less, in which case the Director of the Bureau of General Services may accept oral proposals or bids; |
| | G. The procurement of goods or services involves expenditures of \$10,000 or less, and procurement from a single source is the most economical, effective and appropriate means of fulfilling a demonstrated need. |
| | If a different authorization specifically allows for this non-competitive procurement, please provide that reference here: |

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Solutions II provides maintenance/updates for the Vormetric software. This provides encryption for data that resides on the Spillman server. Our current version of software is very old and is preventing us the ability to update other layered software in Spillman, such as Red Hat, as the current version of Vormetric will not work if we do so.

These other updates are critical to keeping Spillman updated and the past due invoices need to be paid immediately.

The vendor neglected to bill the Maine State Police for the 2017 and 2018 maintenance until this year, however the vendor did not disable the software as this was their error but now the updates are critical to keep Spillman running. The cost of the maintenance is \$5,464 per year.

Since our new maintenance is also due in Nov – we are including this in this request so we

can proceed without any interruption in Spillman functionality.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

This is not available through any state or federal agency.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

This is reasonable compared to other maintenance/upgrades to the other layered Spillman software packages. The cost is \$54654 annually for 3 years (2017, 2018 & 2019).

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

Once the Nov 2019 maintenance has been paid for, there is an alternative solution planned so this will not be needed in the future but will take about 6 to 9 months to execute.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

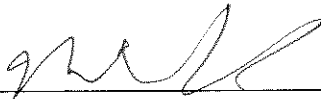

Our current version of software is very old and is preventing us the ability to update other layered software in Spillman, such as Red Hat, as the current version of Vormetric will not work if we do so.

These other updates are critical to keeping Spillman updated and the past due invoices need to be paid immediately.
