	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:

**Please note that the following four points below (#2 through 5) all require a response.**

### **2. Description of Specific Need**

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

**Under statute both the Maine Bureau of Emergency Medical Services and the Maine Fire Marshal's Office are required to collect incident or patient care reports from Maine's 450 Fire Departments and 272 EMS agencies. Many of these are combined Fire and EMS which require these agencies to file 2 reports for the same department. Due to this overhead, many fire agencies do not currently report data as required creating a significant gap in fire incident research and fire prevention data.**

**This system provides integration of the information via unique source codes that populate in the reports.**

**3. Availability of other Public Resources**

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

This is not available by any state or federal entity.

**4. Cost**

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

There is a 3% increase over the last year cost for this as identified and approved in the previous contract.

**5. Future Competition**

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

The Fire Marshal's office will continue to research other available software suites which may turn up new vendors that provide similar or comparable systems that would provide the same or improved services to the numerous join departments that utilize these services. Should this happen, the Fire Marshal's Office will initiate a RFP process.

**Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.**

### 6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The State of Maine is uniquely positioned by currently using a few different ImageTrend products. Due to the fact that ImageTrend is the sole vendor with full source code access to the products the State of Maine uses, such as State Bridge, License Management and Fire Bridge, no other vendor can integrate and synchronize these products at the source code level. The benefits of Intersystem integration are numerous: data flows between systems greatly reduces duplicate data entry and the human error associated with it. Integration further enables workflows impossible or impracticable to reproduce with disparate systems. This allow disparate agencies and department s to approach multi-agency problems from a single, synchronized system without slow and expensive one-off data migration processes.

### 7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
