	D. It appears to be in the best interest of the State to negotiate for the procurement of petroleum products.
	E. The purchase is part of a cooperative project between the State and the University of Maine System, the Maine Community College System, the Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State involving: (1) An activity assisting a state agency and enhancing the ability of the university system, community college system, Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State to fulfill its mission of teaching, research, and public service; (2) A sharing of project responsibilities and, when appropriate, costs.
	<i>If citing the above justification for this sole source request, please note that the specific approval of the Governor's Office is required, in accordance with Executive Order 26 FY 11/12, "An Order to Enhance Competitive Bidding". 	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:
Please note that the following four points below (#2 through 5) all require a response.	
2. Description of Specific Need Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.	
<p>The Maine Correctional has a treatment plant area that contains a grinder that cuts up and grinds items that come through the sewage system at the facility. The current grinder is not functioning, creating a backup and overflow of sewage. This is a health and safety issue as the sewage overflow is flowing into the property outside the building and staff are required to clean all overflow. We are also required to notify DEP for all of these incidents.</p>	
3. Availability of other Public Resources Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to

address the identified need more efficiently and effectively than the identified vendor.

The equipment needed is not available through State resources

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The Department feels the cost is fair and reasonable based on similar repairs in past years.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

We would put this equipment out to bid or obtain three quotes in the future.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1) Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.	
This is an emergency as if this is not repaired, it will continue to backup, overflow and dump sewage in the building and ground outside leading up to the wetlands at the facility.
