Please respond to ALL of the questions in the following sections.

PART III: SUPPLEMENTAL INFORMATION

1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.

The SoftwareMining framework libraries are an integral part of MERITS, the tax processing system that Maine Revenue Services uses for processing and accounting for Maine tax returns. This software was utilized as part of the conversion of the legacy MATS system from COBOL/DB2 to Java/Oracle in 2006 and is embedded as part of the MERITS source code. This maintenance agreement is necessary for the continuing operation of MERITS, since the MERITS system would not function without the SoftwareMining framework libraries.

2. Provide a brief justification for the selected vendor to supplement the response in Part II. Reference the RFP number, if applicable.

The SoftwareMining framework libraries are unique to Software Modernization Technologies LTD, and part of their proprietary software that is utilized to convert legacy COBOL code to Java. These libraries are embedded within the converted MERITS code and are required for the successful processing of the MERITS system. Click or tap here to enter text.

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

The annual maintenance cost for the library modules is comparable with previous years maintenance costs.

4. Describe the plan for future competition for the goods or services.

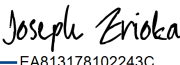

The software itself will become unnecessary when the agency fully implements its new holistic system. Click or tap here to enter text.

PART IV: AMERICAN RESCUE PLAN ACT (ARPA) / MAINE JOBS & RECOVERY PLAN (MJRP)

Does this request utilize ARPA/MJRP funds?

Yes – If Yes, please attach the approved Business Case(s).

No – If No, proceed to Part V.
