**Please note that the following four points below (#2 through 5) all require a response.**

<b>2. Description of Specific Need</b>	Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.
	Original software was installed and maintained by Honeywell. Software operates and controls all HVAC systems, along with occupancy scheduling and necessary environmental parameter changes in order to meet the operational needs of the W.BBH laboratory facility.
<b>3. Availability of other Public Resources</b>	Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.
	None. Due the unique infrastructure of Honeywells software programs which is indigenoussness to the company, along with trained personnel who are familiar with the software and have capabilities to install computer boards on our M-cells (M-cells automatically monitor and make parameter changes as needed to the facility), and re-program them. This minimizes any unwarranted down time and allows the continued operation at peak efficiency.

**4. Cost**

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The SOM utilizes Honeywell as their primary resource for servicing of their HVAC systems. Their pricing has been comparable from year to year with only a slight increase. For this reason, as well as equipment compatibility, no other quotes have been obtained.

**5. Future Competition**

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

None. DMR will continue to utilize Honeywell as their primary vendor for servicing of our HVAC systems which is consistent with BGS recommended provider for this type of service.

**Please note that only one of the two points below (“Uniqueness” or “Timeframe”) requires a response. Requesting Departments are not required to respond to both points.**

**6. Uniqueness**

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

Honeywell has a track record with DMR and quick response time. They have personnel available 24/7 and technicians who are willing to walk through any anomalies that arise when called, making for a rapid turnaround, thus eliminating unnecessary waste. Their familiarity with the system enables the department to rectify the issues quickly, which in turn reduces the facilities operational costs and ensures maximum efficiency.

**7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)**

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
