Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The Maine State Police ERT responds to events across the State of Maine in order to document, process and analyze complicated crime scenes. Crime scenes by their very nature are uncontrolled environments. Because crime scenes are often replete with biohazards, weapons, needles and unpredictable structural integrity they are inherently dangerous. The ERT has an obligation to respond to such settings and document the scenes for circumstances and conditions, possibly reconstruct a sequence of events and take samples of evidence. Taking samples of evidence sometimes requires the removal and/or disassembly of parts of buildings or structures creating additional hazards.

The ERT team current lacks the safe footwear necessary to process scenes in extreme unsafe conditions. While these conditions don't exist at all crime scenes, they occur frequently and unexpectedly. By having steel shank safety boots available to team members, the ERT could process these scenes with greater confidence. Having safe footwear in the scene would better enable ERT members to focus on the task at hand.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

This is not available by any state or federal entity.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

There appears to be only one manufacturer of this field-tested boot.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

We will continue to look for other entities that offer this same boot.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

The ERT made contact with other safety professionals and first responders in the field to determine which boots they have the most confidence based on years of experience being used by their agencies in the field. The ERT chose a boot used by firefighters in the same circumstances and level of danger in the field. field testing a set of boots which are not unlike those worn by firefighters in dangerous scenes.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
