	D. It appears to be in the best interest of the State to negotiate for the procurement of petroleum products;
	E. The purchase is part of a cooperative project between the State and the University of Maine System, the Maine Community College System, the Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State involving: (1) An activity assisting a state agency and enhancing the ability of the university system, community college system, Maine Maritime Academy, or a private, nonprofit, regionally accredited institution of higher education with a main campus in this State to fulfill its mission of teaching, research, and public service; (2) A sharing of project responsibilities and, when appropriate, costs;

	F. The procurement of goods or services involves expenditures of \$10,000 or less, in which case the Director of the Bureau of General Services may accept oral proposals or bids;
	G. The procurement of goods or services involves expenditures of \$10,000 or less, and procurement from a single source is the most economical, effective and appropriate means of fulfilling a demonstrated need.
	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:
Please note that the following four points below (#2 through 5) <u>all</u> require a response.	
2. Description of Specific Need Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.	
<p>Automated External Defibrillators (AEDs) are critical in the situation of an out-of-hospital cardiac arrest. Early chest compressions and defibrillation are readily associated with increased survivability of these types of events and so access to quality AEDs throughout the state is vital for promoting survival rates. This agreement will allow municipalities, political subdivisions, and schools the ability to acquire AEDs for a discounted price.</p>

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

There are currently no publicly held resources that manufacture or sell AEDs.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

Discounted pricing per item was negotiated previously with the vendor.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

Maine EMS anticipates submitting a Request for Proposals during calendar year 2020 for additional vendors to be able to compete for this reduced pricing contract.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

There are a limited number of vendors for AED products. Additionally, the State of Maine, municipalities, political subdivisions, and schools have used LifeSavers to specifically purchase Lifeline AEDs. This further reduces the number of companies that can provide these specific AEDs and accompanying supplies because they are manufacturer specific. If certain supplies cannot be acquired to outfit these AEDs, organizations within Maine Government may be forced to replace all of their AEDs.

Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.
