	If a different authorization specifically allows for this non-competitive procurement, please provide that reference here:

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

Due to an influx in the number of professions now required to have background checks via fingerprinting, the amount of funding originally anticipated was inadequate and additional funding is needed to cover costs through the end of the contract period. In addition, the MSP is requesting an extension in order to work with the vendor on creating a new contract that has a refresh included and a price reduction.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

This is not available by any state or federal entity.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

Although we pay for this service, there is no cost to the State of Maine. All costs are recovered from the User fees charged the individual being fingerprinted. See attached worksheet.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

This is an amendment to the original contract. Because this service is dependent on our existing AFIS system, this is the only vendor we can use. The AFIS system uses proprietary algorithms and changing to a new system is cost prohibitive. The cost of the AFIS system (the fingerprinting hub equipment) gets shared by Maine, NH and Vermont as part of a Tri-State agreement. The other two states are not willing to change. A change by Maine would require us to bear the entire cost of a new system and all fingerprinting equipment statewide would have to be replaced to be compatible with the new system.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

7. Timeframe (Complete only if B. is the Statutory Justification marked on Page 1)

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

The increase in fingerprinting requirements was not anticipated resulting in not enough funding in the contract. This amendment is intended to cover the anticipated costs of fingerprinting through the end of the contract including the requested extension and pay for the services needed through the requested extension. The bureau has an obligation to provide fingerprinting services as it was designated the statutorily appointed agency who serves as the sole source contributor to the FBI's database.
