PART III: SUPPLEMENTAL INFORMATION

MRS uses Perforce Helix software as part of the formal MRS Change Management process to log system defects and enhancements, prioritize them, assign them to staff for remedying and tracking. MRS has been utilizing Perforce Helix (TestTrack) since 2008.

2. Provide a brief justification for the selected vendor to supplement the response in Part II.

Perforce Helix is unique because it has built-in workflows to handle Systems Development, Quality Assurance, Project Management, and Issues Management for MRS's core applications used to conduct business.

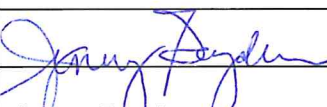

3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

MRS is purchasing maintenance and support at a discount through Perforce GSA program available to State and Federal Government. MRS also uses licenses that are most session based versus user based which allows for more employees to use the software.

4. Describe the plan for future competition for the goods or services.

The software itself will become unnecessary when the agency implements its new holistic system.
