PART III: SUPPLEMENTAL INFORMATION
Please respond to ALL of the following:
<b>1. Provide a more detailed description and explain the need for the goods, services or grant to supplement the response in Part I.</b>
Truck 11-511 had an oil leak under the turbo area. It was at Daigle for a leak in the same area in July and they replaced a leaking turbo and a valve cover gasket. This time the oil was coming from a slip joint on the exhaust manifold. Did a compression test and 3 cylinders were low. Removed manifold and found 3 cylinders with oil slobber. The best and most cost-effective course of action was to do an in-frame overhaul which consists of new pistons, rings, piston sleeves, bearings, gaskets and seals, head machined to include valve job and remanufactured injectors. This is a plow truck and with the winter season here, it was necessary for the repair to

### PART III: SUPPLEMENTAL INFORMATION

keep the region plow fleet ready for winter events and public safety.

#### 2. Provide a brief justification for the selected vendor to supplement the response in Part II.

The Fleet Augusta heavy shop was busy and is down 2 tech's and could not get is for a week or more. The vendor for this work was able to get it in a couple of days and has International trained technicians along with all the special tools for the repair and replacement of the parts associated with this issue. The magnitude of this repair was considered, and the logical decision was to send this unit to the dealer.

#### 3. Explain how the negotiated costs or rates are fair and reasonable; or how the funding was allocated to grantee.

Daigle & Houghton is an International dealer and Fleet Services has negotiated a lower labor rate with them, we have also had work done there in the past and when compared with the other International dealer their rates were the same or in some cases a little cheaper. They are able to efficiently and cost effectively do a repair of this significance. This repair would not have been something the department could have cost effectively done and completed in a timely manner.

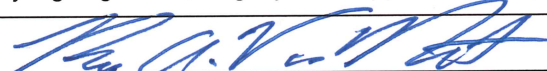

#### 4. Describe the plan for future competition for the goods or services.

If we could convince more Volvo truck dealers and service facilities to move into more locations in the state it would potentially foster better competition.
