PROJECT: Drainage and Sidwalk Improvements
BGS PIN: : 3259
OWNER: Maine Maritime Academy
ENGINEER: Plymouth Engineering, Inc.
TO: All Plan Holders

This Addendum forms a part of the Contract Documents and modifies the Bidding Documents dated June 28, 2021, with amendments and additions noted below.

Acknowledge receipt of this Addendum in the space provided in the Bid Form. Failure to do so may disqualify the Bidder.

This Addendum consists of two (2) pages and is in the form of questions and answers from prospective bidders and additions by the Engineer. Enclosures beyond the basic addendum are attached.

PRE BID MEETING

1. A mandatory Pre-Bid meeting was held at 10:00 AM on Thursday, July 8, 2021, at the project site, Alford Student Center, Maine Maritime Academy, Castine, Maine. The purpose of the meeting was to outline the project, clarify issues and address questions and issues about the project. An attendance form has been posted on the Bureau of General Services website a copy of which is attached. Several suggestions were made:
 - *Consider using riprap around the catch basins to minimize erosion? Yes* The slopes adjacent to the existing catch basins in the project area are proposed to have riprap as shown on the attached revised Drawings C3,C6 and C7.
 - Carl Olson requested that since the project would most likely be done while students are present, minimizing disruption of pedestrian traffic between Curtis Hall and Alford Student Center is critical. Furthermore, he would prefer the selected contractor perform the work continuously to minimize disruption of student pedestrian traffic.

Clarification of "Notice to Contractors"
