NOTICE TO ARCHITECTS AND ENGINEERS
REQUEST FOR QUALIFICATIONS

The Maine Department of Defense, Veterans and Emergency Management wishes to procure architectural/engineering services for the **Camp Keyes Micro Grid Project at Camp Keyes in Augusta, Maine**. Qualifications packages are due at 1:00 p.m. on **13 January 2022** at Bldg.7, Camp Keyes, 194 Winthrop Street, Augusta, Maine 04330, ATTN: Mr. Ralph F. Turner

The scope of this project includes, but is not limited to, Type A (Investigative), Type B (Design), and Type C (Construction Administrative) services for a resilient micro grid at Camp Keyes in Augusta, Maine. The Consultant will review the existing electrical distribution and emergency infrastructure to determine the most feasible approach to providing routine, reliable, and resilient electrical and emergency generation for the Camp Keyes facilities. The project will also include energy conservation measures such as combined heat and power, battery storage systems, domestic electric hot water, lighting and demand management. Design will be in accordance with all applicable regulations, Design Guides, Unified Facilities Codes, and Department of the Army and National Guard Bureau requirements. Services required are project scheduling and cost estimating, preliminary design, design development, contract documents, and construction administration.

Responding firms must comply with the detailed *RFQ Information for Architects and Engineers* on the **Bureau of General Services** website: <https://www.maine.gov/dafs/bgs/business-opportunities>.
