

MMA Waterfront Campus Improvements RFQ Questions

BGS Project No. 3396

18 May 22

1. Question: Can you tell us who the stakeholder groups are?

Stakeholder groups include:

Regulatory agencies with authority governing the project

MMA Administration

MMA Facilities

MMA Regiment of Midshipmen Commandant and Training Ship Master

State of Maine Bureau of General Services

Colliers Project Leaders

2. Question: Are there community or neighborhood groups that will be involved?

Project information and updates will be provided to the Town of Castine and other potential groups not known. We do not believe there is a formal neighborhood group in Castine but we will be working with and providing updates to MMA's neighbors on the project as it progresses.
