Request for Qualifications
Information for Architects and Engineers

The Department of Agriculture, Conservation, and Forestry, Bureau of Parks and Lands wishes to procure architectural/engineering services for the *Boardwalk Replacement at Laudholm Farm State Park* (BGS 3633) in Wells, Maine.

Project Description

The goal of this project is to replace the elevated boardwalk system at Laudholm Farm State Park. These improvements will include, but are not limited to, reconstructing ~2,700 linear feet of aging, elevated boardwalk trail, and reconstructing the Laudholm Beach Overlook and Little River Overlook. The reconstructed boardwalk will improve functionality and accessibility of the trail and the structural design will place emphasis on longevity and durability. The new boardwalk system should be durable and easy to maintain in its tidal marine environment. Construction and access will take place within the footprint of the existing trail corridor and emphasis will be placed on preserving trees and limiting damage to vegetation surrounding the trail.

Scope of Services

Consultant will meet with the Owner on site to discuss the project objectives, design goals, and areas of concern, including vehicle and equipment access, material selection, and maintenance requirements.

Consultant responsibilities will include:

- Site assessment, including topographical surveys, wetland delineation and classification and other necessary surveys and testing
- Identification and evaluation of applicable federal, state, and local permit requirements
- Preparing permitting plan documents, including applications to authorities having jurisdiction over the project.
- Attend project permitting meetings
- Creating proposed site and material plans
- Construction cost estimates
- Bid-ready construction documents, including a final cost estimate
- Conduct public bidding per State of Maine BGS guidelines
- Conduct construction contract administration
- Attend all project meetings, as required

The AE Consultant may be required to coordinate this work or additional work with other consultants contracted by the Owner.

Submission Requirements

Interested firms should submit *five paper copies* and *one electronic copy* of a Letter of Interest with a Statement of Qualifications which includes their response to criteria A through G in the Selection Criteria table below.

The *paper copies* of the Letter of Interest and Statement of Qualifications should be mailed to Owen Blease, Senior Planner, Bureau of Parks and Lands, 22 State House Station, Augusta, Maine 04333-0022 so as to be received no later than **1:00 PM on October 6, 2023**.

The *electronic copy* of the Letter of Interest and Statement of Qualifications should be sent as an attachment to an email addressed to owen.blease@maine.gov and BGS.Architect@Maine.gov so as to meet the deadline noted above.

Selection Criteria		
A.	Qualifications to undertake this project	Professional experience in general. Quality of services. Relevant disciplines. Size of firm or firms. Understanding of this project. Responsiveness to project by virtue of proximity. Discuss each of the above especially as it relates to the work of this project.
B.	Cost control experience	Ability to manage project budgets, and design to budgets, to create accurate construction cost estimates, and to utilize project cost controls in design and construction.
C.	Project experience	List of projects that demonstrate capabilities, with services provided for each project. Provide project details, date of completion, and client contact information for each. Note the involvement of the particular personnel who are proposed for this project.
D.	Similar project experience	List of recently completed projects similar in type, size, and other elements. Provide project details, date of completion, and client contact information for each. Note the involvement of the particular personnel who are proposed for this project.
E.	Project team	Organization of project team, with profiles of key personnel who would be involved in the project. Provide education, special training, experience, and responsibilities of personnel, especially as it relates to the work of this project. Experience working together as a unit.

State of Maine
Bureau of General Services
Division of Planning, Design & Construction

F.	Workload projection	General illustration or statement of the ability of the project team to respond to this project schedule.
G.	Business references	List of business references other than those listed above, including contact information.

Firms responding shall employ personnel who have current licensure in the State of Maine who will serve as Architects, Engineers, and Landscape Architects of Record on this project. This project will utilize the standard BGS contract forms, available on the BGS website (<https://www.maine.gov/dafs/bgs/forms>).

Firms responding will be screened and interviewed on the basis of qualifications only. Project fees and specific design solutions for this project shall not be discussed at the interview. Specific program information will not be available before the screening of qualification packages. The selection committee will rank all firms and negotiate fees with the highest ranked firm.

Architect-Engineer Procurement Process

The standard procurement process of Architect and Engineer design services for public improvements is a Qualification Based Selection (QBS) process per statute (Title 5, §1742 subsection 6), described briefly here.

1. The advertisement of this Request for Qualifications is the initial step in the process after the Agency assures that the project itself is approved and funded. A clear scope of services statement is an essential component of the advertisement.
2. Interested firms respond to the Request for Qualifications (RFQ) as described below, submitting the Letter of Interest and Statement of Qualifications to the Selection Committee.
3. The Selection Committee screens all submissions and invites the most qualified firms to interview for the project, typically three to five firms.
4. The Selection Committee interviews the firms. Second interviews may be scheduled. References are checked.
5. The Selection Committee ranks all of the interviewed firms. The Committee negotiates an agreement with the highest ranked firm based on the scope of professional services identified in the RFQ and interview.
6. A BGS Architect/Engineer Agreement is drafted.
7. The agreement must be approved by BGS before work commences.
