

Due to on-going/planned construction on the East Campus, parking will be limited this winter. To provide more available daily parking spots closer to work locations, please relocate state-owned vehicles/equipment from the red marked lots to the Yellow Lot #1. This includes seasonal vehicles/equipment/trailers and rarely used state vehicles.

Please park infrequently used state vehicles in Yellow Lot #2. Vehicles should be parked as close to the north end as possible.

Red B1 is closed for blasting.  
Red B2 will be closed Nov 3<sup>rd</sup>.  
Red B3 will be closed in mid-November.  
The B Lot will reopen once construction activities allow.
