NOTES:

1. Box out for protrusions on wall where shown.
2. Remove, extend and reinstall electrical conduit, telephone lines, lights, outlets, lights, etc. that protrude or are attached to the existing wall.
3. Extend all water spigots, louvers, rehang existing signs, and extend or rehang other items that it stands out from the building.

The image contains two technical drawings of doors. The left drawing is labeled 'A' and 'SECURITY TYPE INSULATED DOOR'. It shows a door with a vertical handle and a lock mechanism. Dimensions include a handle height of 16 inches, a door height of 80 inches, and a door width of 36 inches. The right drawing is labeled 'B' and 'PRESSED STEEL DOOR FRAME'. It shows a door frame with a handle and a lock mechanism. Dimensions include a handle height of 16 inches, a door height of 80 inches, and a door width of 36 inches. The drawings are labeled 'A' and 'B' respectively.
