Retail Sales Quarterly Report

ANNUAL REVIEW 2006

CONTENTS

Introduction	1
Total Taxable Sales	2
Sales by Store Type	4
Definitions: Economic Summary Areas	14
Store Types	18

INTRODUCTION

This report contains data on taxable Maine retail sales, as derived from state sales tax collections. The Maine State Planning Office uses data from Maine Revenue Services to produce this report.

These data represent sales, not the amount of tax revenue collected. Sales are categorized by the type of store in which they take place, not by the type of product sold. For example, sales of kitchen utensils at a supermarket appear under "food store sales" rather than "general merchandise."

"Consumer Retail Sales" are the sum of sales to the six store-type groups (building supply, general merchandise, etc.). "Total Retail Sales" are the sum of Consumer Retail Sales and "Business Operating Sales," a special category not published in these pages. "Business Operating Sales" include utility sales and heating oil sold to commercial and industrial establishments. Thus, Consumer Retail Sales more accurately describe what most people regard as retail sales.

When interpreting the tables in this report, readers should keep in mind that food intended for home consumption is not taxed in Maine. Data on food store sales reflect sales of non-food items. These items typically represent about 25% of actual total sales in food stores.

If you have questions about this report, please contact David Douglass at the Maine State Planning Office (207-287-1478 or david.douglass@maine.gov).

DEFINITIONS OF STORE-TYPE GROUPS

Note: In Maine's sales tax system, codings are by store type, not product. Thus, each store is coded into one of the store-type groups below depending on its predominant product; i.e., furniture sold by a furniture store will be included in General Merchandise sales while furniture sold by a hardware store will be included in Building Supply sales.

1. Consumer Retail Sales Taxable retail sales to consumers.
2. Total Retail Sales Includes Consumer Retail Sales plus special types of business-to-business sales and rentals where the tax is paid directly by the buyer (such as commercial or industrial heating oil purchases).
3. Building Supply Durable equipment sales, contractors' sales, hardware stores and lumber yards.
4. Food Stores All food stores from large supermarkets to small corner food stores. The values here are snacks and non-food items, only, since food intended for home consumption is not taxed. For any geographic area, the taxable values shown will typically represent roughly 25% of actual store sales (since three-fourths of all food store sales are not taxed).
5. General Merchandise In this group are department stores and stores carrying product lines typically found in department stores; including clothing stores, furniture stores, shoe stores, and home appliance stores.
6. Other Retail This group includes a wide variety of store types not covered elsewhere, including drug stores, jewelry stores, sporting goods stores, antique dealers, book stores, photo supply stores, gift shops, etc.
7. Auto This group includes all transportation-related stores, including auto dealers, auto parts stores, motorcycle shops, aircraft dealers, boat dealers, auto rental, etc.
8. Restaurants Includes all stores selling food for immediate consumption.
9. Lodging Includes hotels, motels, campgrounds, bed & breakfasts, etc.
