

# **OFFICIAL PLAN OF RECORD**

## FACILITY PLAN

## CULTIVATION FACILITY

The Facility Plan is an official Plan of Record. This document and use of this template are required. The Office of Cannabis Policy (OCP) understands that an applicant or licensee may have prepared other facility documents. Although the applicant or licensee may submit additional facility documents for reference, this Facility Plan is designed to be a succinct, standalone document.

Owne	rship of the Premises			
	me of Property Owner			
Mailing	Address of Property Owner	City	State	ZIP
Property	Owner Telephone Number	Property Owner Email Addre	ess	1
1.	Is the applicant also the property owner listed above? ☐ Yes ☐ No			
2.	If the answer to question 1 above is no, is a copy of the lease, rental agreement, or premises attached or included with the submission of this form? If the lease, rent possession does not include language addressing owner consent for intended use provide additional documentation to prove such consent. Yes No Not applicable	al agreement, or documentatio	on of other arran	gement for
Tax M	ap			
1.	Provide a copy of a tax map clearly indicating an area of 1000 feet in all direction. Land Use Planning Commission has reduced the setback to no less than 500 feet, authority, and indicating that the area around the premises does not include a pre MRS§§402(2)(A) and 403(2)(A).	then showing the distance in a	all directions req	uired by local
Facili	ty Diagram			
1.	<ul> <li>Provide a diagram of the layout of the facility, including: <ul> <li>(a) All limited access areas (Limited access area means a building, room or othe establishment where a licensee is authorized to cultivate, store, weight, man cannabis and adult use cannabis products.)</li> <li>(b) Cultivation areas where the licensee cultivates mature cannabis plants. If the areas, please identify the boundaries of each component area.</li> <li>(c) Cultivation areas where the licensee cultivates matures cannabis plants solel collecting seeds, seedlings and immature cannabis plants</li> <li>(d) Square footage of the establishment and of the separate areas listed above in cultivation area</li> <li>(e) Waste disposal area</li> <li>(f) Points of entry</li> <li>(g) Windows and doors, designating which are lockable</li> <li>(h) Alarm control panels and alarm sensors</li> <li>(i) Video surveillance cameras and storage devices</li> <li>(j) Communication devices (internet/telephone)</li> <li>(k) Fences</li> <li>(l) Any other additional security measures</li> <li>(m) Legal ingress onto the property from the closest maintained public way</li> </ul></li></ul>	ufacture, package or otherwise e surface area of the plant cano ly for propagating seedlings, in a, b and c, including the dime	e prepare for sale opy consists of no nmature cannabi ensions of the per	e adult use oncontiguous is plants or rimeter of each
2.	<ul> <li>If the property is also used as a residence, clearly indicate on the diagram above, i complete separation of the residence from the facility, including:</li> <li>(a) Entirely separate entrances from the public right of way, and</li> <li>(b) That no solvent extraction using potentially hazardous extraction methods o building or structure as the residence.</li> </ul>			
3.	<ul> <li>If the licensee co-locates adult use and medical use operations, clearly indicate th</li> <li>The areas of the premises that will contain adult use cannabis plants, cannabis</li> <li>The areas of the premises that will contain medical use cannabis plants, cannabis</li> <li>The areas of the premises, if any, that will contain equipment, chemicals or oth cannabis plants, cannabis products.</li> </ul>	, cannabis products or cannabi pis, cannabis products or canna	abis concentrate	
4.	For clarity, the use of numbering, labeling, and/or a diagram legend or key should	d be used to incorporate the int	formation reque	sted.

OCP\_FP\_C Rev. 11/2022

SEC	SECTION 3: Co-Location of Adult Use and Medical Use Operations		
1.	Is this Adult Use facility co-located with any other Adult U	se facilities?	
	□ Yes □ No		
	If yes, with who?		
	Adult Use Establishment Licensee Name:	Adult Use Establishment License Number:	
	Adult Use Establishment Licensee Name:	Adult Use Establishment License Number:	
	Adult Use Establishment Licensee Name:	Adult Use Establishment License Number:	
2.	Is this Adult Use facility co-located with any medical use o	perations?	
	Yes No		
	If yes, with who?		
	Medical Registered Caregiver or Dispensary Name:	Registry Card/Certificate Number:	
	Medical Registered Caregiver or Dispensary Name:	Registry Card/Certificate Number:	
	Medical Registered Caregiver or Dispensary Name:	Registry Card/Certificate Number:	
3.	If the licensee co-locates adult use and medical use operation other cannabis products are correctly packaged and labeled	ions, describe the plans to ensure that all cannabis, finished cannabis concentrate and d for medical use or adult use.	
4.	If the licensee co-locates adult use and medical use operati system, cannabis, cannabis concentrate and cannabis prod cannabis products and will otherwise keep them from beco	ions, describe how the licensee will separately track, including input to the tracking lucts for medical use separately from adult use cannabis, cannabis concentrate and oming intermixed.	
5.		uipment is not used simultaneously on medical cannabis and adult use cannabis, with oncentrate, and other cannabis products will remain separate from adult use cts.	

All canr manufa	<b>TION 4: Security Measures</b> Tabis establishments must enact security measures to prevent the diversion of cannabis or cannabis products that are being cultivated, ctured, tested, packaged, stored, displayed or transported. Provide sufficient detail so that the Department may determine whether the nents are met.
Light	
1.	Do gates and/or perimeter entry points have lighting sufficient for observers to see, and cameras to record, any activity within 10 feet of the gate or entry?
	□ Yes □ No
2.	Describe perimeter lighting at any point of entry or exit, whether it is a gate or access from a building.
3.	List equipment and provide rating for all lights as depicted and numbered/labeled in the diagram in Section 2.
Doors	and Windows
1.	Do all perimeter entry doors and all doors separating limited access areas from areas open to visitors and customers have commercial grade locks, appropriate for facilities requiring high levels of physical security?
	Yes No
2.	Are all external entrances to indoor facilities on the licensed premises lockable?
	☐ Yes ☐ No
3.	List equipment and describe commercial grade locks on all perimeter and limited access doors as depicted and numbered/labeled in the diagram in Section 2.
4.	Are all perimeter windows in good condition and lockable?
	☐ Yes ☐ No
5.	List equipment and describe locks on each perimeter window as depicted and numbered/labeled in the diagram in Section 2.
Alarn	n System
1.	Do you have an alarm system(s) monitored by a licensed security company capable of contacting the licensee and, if necessary, law enforcement?
	☐ Yes ☐ No
2.	Does the system include an audible alarm, which is capable of being disabled remotely by the security company?
	□ Yes □ No
3.	List equipment and describe the alarm system.
4.	Provide the name of the licensed security company, a specific point of contact, and that person's contact information.
5.	Do you have monitored sensors on all perimeter entry points and perimeter windows, or perimeter windows protected by appropriately located motion sensors?
	□ Yes □ No
6.	List equipment and describe monitored sensors on all perimeter entry points and perimeter windows, or perimeter windows protected by appropriately located motion sensors as depicted and numbered/labeled in the diagram in Section 2.

Do you have a video surveillance system that meets the following minimum requirements? Check all that apply:     Different protocol capability     Doe of the following ecording requirements:     Doe of the following econdence ecording to the test and the on all recording the cossidio of motion     Deer and ecordin bapting of the time and late on all recording the mumber and location of all permanently fixed cameras as     depicted and numbered/labeled in the following requirements are met and reflected in the diagram in Section z and corresponding     description(s) above:     Cameras must be permanently fixed outside each entryl-eit point (perimeter and limited access area) to allow identification of persons     entry the permanent and minet access areas.     Cameras must be permanently fixed outside each entryl-eit point (perimeter and limited access area) to allow identification of persons     exting the permisse and limited access areas.     Astificient number of cameras mast be permanently fixed outside each entryl-eit point (perimeter and limited access area) to allow identification of persons     exting the permisse and limited access areas.     Astificient number of cameras mast be permanently fixed outside each entryl-eit point (perimeter and limited access area) to allow identification of persons     extends and under the outside permanently fixed to allow the viewing, in its entirety, of any area where cannabis, cannabis     plans, limmature cannabis plants, seetling, annabis e	Video	Surveillance

	6.	
	7.	

8.	Describe how the applicant/licensee shall maintain a list of all persons with access to the video surveillance recordings and procedures for controlling access to the recordings.
This secti structures	<b>ng and Lighting Requirements for Cultivation Facilities.</b> ion applies to cultivation facilities that cultivate seedlings, immature plants, or mature plants in outdoor areas or in greenhouses or other s that do not meet all security requirements for buildings.
1.	Are all fencing and gates secure, at least 6 feet high, security grade and obscure, or have a cover that obscures, the limited access area from being readily viewed from outside of the fenced in area.
	□ Yes □ No
2.	List equipment and describe secure fencing and all gates, including height and material used to obscure the limited access area from being readily viewed from outside of the fenced in area as depicted and numbered/labeled in the diagram in Section 2.
3.	Is there sufficient lighting to illuminate a perimeter of a least 10 feet around any point of entry, ether it is a gate or access from the building?
	□ Yes □ No
4.	List equipment and describe all lighting as depicted and numbered/labeled in the diagram in Section 2.
5.	Are there a sufficient number of cameras permanently fixed to allow recording of all areas outside of the premises within 10 feet of the exterior fence and gates of a cultivation facility with outdoor growing.
	□ Yes □ No
6.	List equipment and describe all video cameras as depicted and numbered/labeled in the diagram in Section 2.

SECTION 5: Controlling Access		
Public Access to the Cannabis Establishment		
<ul> <li>Are all entry points designed so that no person under 21 years of age is allowed entry to the licensed premise?</li> <li>Yes No</li> </ul>		
2. Describe all of entry points designated as the place where the licensee or licensee's employee will verify the age and identity of all persons entering the premises as depicted and numbered/labeled in the diagram in Section 2.		
<ol> <li>Describe all entry points designated as a place where the licensee or licensee's employees will receive mail or other deliveries as depicted and numbered/labeled in the diagram in Section 2.</li> </ol>		
4. Describe how applicant/licensee will ensure that all licensees, employees, and security guards maintain compliance with all laws and regulations related to firearms and other weapons in and around the cannabis establishment.		
Employee Access		
1. Describe all entry points designated as employee entrances, including the manner in which employees gain access to the cannabis establishment (e.g. badge scanner or key locked doors), as depicted and numbered/labeled in the diagram in Section 2.		
2. Describe how the applicant/licensee will ensure all owners, managers, and employees display valid individual identification cards at all times.		
3. Describe any additional security measures aimed to prevent employee theft.		

Contr	olling Access to Limited Access Areas
1.	Are the following security measures in place for all limited access areas? Check all that apply.
	□ Identification checks
	Locked doors
	☐ Video surveillance
2.	Describe how the applicant/licensee will utilize the security measures listed above to control access to all limited access area as depicted and numbered/labeled in the diagram in Section 2.
3.	Are security measures in place to control access to limited access areas by contractors 21 years of age or older (including, but not limited to, electricians, plumbers, engineers or alarm technicians) who will not handle cannabis plants, cannabis or cannabis products?
4.	Are security measures in place to control access to limited access areas by sample collector and cannabis testing facility licensees or licensee's employees displaying valid individual identification cards?
	□ Yes □ No
5.	Describe all designated areas where contractors and other licensees will be required to provide proof of identification, sign a visitor entry log, and receive a visitor identification badge by establishment staff as depicted and numbered/labeled in the diagram in Section 2.
Addit	ional Security Measures for Nursery Cultivation Only
1.	Describe a designated entry point at which a licensee or licensee's employee will check for a valid government issued form of identification prior to allowing access to areas of the premises designated for retail sales.
2.	Are display cases lockable and secure to prevent the public from handling cannabis plants, cannabis or cannabis products without direct
2.	supervision of a licensee or employee?
	Yes No
3.	Are counters of sufficient height to prevent the public from handling cannabis plants, cannabis or cannabis products without direct supervision of a licensee or employee?
	□ Yes □ No
4.	Describe all security measures taken to ensure compliance with the above requirements.

### **SECTION 6: Cultivation Facility Operation Specific Information**

#### License Type

Cultivation Facility, Tier 1 (Plants) – No more than 30 mature cannabis plants.

Cultivation Facility, Tier 1 (Canopy) – No more than 500 square feet of mature cannabis plants.

Cultivation Facility, Tier 2 – No more than 2,000 square feet of mature cannabis plants.

Cultivation Facility, Tier 3 – No more than 7,000 square feet of mature cannabis plants.

Cultivation Facility, Tier 4 – No more than 20,000 square feet of mature cannabis plants.

Cultivation Facility, Nursery – No more than 1,000 square feet of mature cannabis plants.

#### **Days and Hours of Operation**

Business Hours mean 9A.M. to 5P.M. Monday through Friday.

1. List any hours during Monday through Friday between 9A.M. and 5P.M. the facility will **NOT** be conducting authorized activities.

Equipment and Approval Listing		
	ts, irrigation system(s), greenhouse(s) and all other equipment to be used specific to the cultivation of cannabis within the	
Pesticides, Fur	ngicides, Insecticides and Fertilizers	
1. List all pest	ticides, fungicides, insecticides and fertilizers that will be present or used.	
Utility Plans		
	ans for providing electricity, water, and other utilities necessary for the normal operation of the facility.	
	ans for ventilation and filtration systems that prevent cannabis plant odors from significantly altering the environmental odor aile addressing the potential for mold.	
Plans for Com	pliance with Cannabis Legalization Act and the Adult Use Program Rules	
1. Describe pl	ans for shipping and receiving of cannabis and cannabis products.	
2. Describe pl	ans to dispose of or destroy used, unused and waste cannabis and cannabis products.	
3. Describe he	ow the facility plans to conduct a background screening process for employees and vendors.	
	ans for physically separating areas where mature cannabis plants will be grown, from where cannabis solely used for propagation, nd immature cannabis plans will be grown.	
	ce area of the plant canopy consists of noncontiguous areas, identify how each component area will be separated.	
plants to ac	of Record is for a Cultivation Nursery Facility, indicate whether the facility intends to sell cannabis seeds, seedlings, or immature dults, 21 years of age or older, who are licensees, indicate so by selecting this box. No	

### SECTION 7: Reports of Non-Compliant Conduct

1. Describe how the licensee will ensure any incident of non-compliance with the cannabis establishment licensee's authorized conduct will be reported in writing to the Department within 24 hours.
