COMMISSIONER

OFFICE OF CANNABIS POLICY

JOHN HUDAK
DIRECTOR

June 29, 2026

Dear Adult Use Cannabis Program Participants,

This is an update from the Office of Cannabis Policy (OCP) on the implementation and timing of changes to the terms of the adult use inventory tracking system contract with Metrc, LLC, as previously communicated on [January 29, 2026](#) and [April 2, 2026](#).

As part of the new contract, Metrc is building additional functionality in the platform for Maine adult use licensees. As a reminder, these new features will:

1. Remind licensees what minimum sample size is needed for a lab sample to conduct mandatory tests; and
2. Help licensees determine what (if any) mandatory lab tests are still needed for a given package at any stage in the system.

These features continue to be under development and are expected to become available to licensees later this summer. Additional OCP guidance, Metrc bulletins, and trainings will be distributed at least two weeks in advance of each new feature release.

Adult use licensees are also reminded that the new contract with Metrc increases monthly user fees by \$5.00 per month. However, **those fee increases will *not* go into effect until both new features listed above are implemented** and available to users. OCP will continue to provide updates on the implementation and timing of these changes to ensure that licensees have at least two weeks to prepare for monthly user fee increases.

In the meantime, licensees are encouraged to review the new [“Metrc Resources” page](#) on the OCP website. This page serves as a directory of various Metrc resources, trainings, and tools designed to help licensees gain a better understanding of the inventory tracking system.

Sincerely,

A handwritten signature in black ink, appearing to read 'John Hudak'.

John Hudak
Director
