Subject: Labeling of Adult Use Marijuana with Test Results

---

Section 11 of the Department of Administrative and Financial Services' Adult Use Marijuana Program Rule (18-691 C.M.R. ch. 1) requires licensees to include information for consumers on the marketing layer of any retail sale package containing marijuana or marijuana products.

The Office of Marijuana Policy has received inquiries regarding the information necessary to satisfy the requirement of Section 11.1.2(F)(3) which reads: "The label must include...Mandatory testing results from the licensed testing facility that tested the sample of the batch from which the marijuana or marijuana product was taken..."

Licensees may satisfy this particular labeling requirement with the simple statement that the product "Passed Mandatory Testing". The inclusion of "Passed Mandatory Testing" does not excuse a licensee from compliance with any other packaging and labeling requirement, including requirements regarding the disclosure of the cannabinoid content or potency of any cannabinoids in the marijuana or marijuana product.
