Department of Administrative and Financial Services
Contract for Special Services – Amendment No. 1

BY AGREEMENT of both parties this 17th Day of May, 2012 the Contract for Special Services, dated May 17, 2007 between the State of Maine, Department of Administrative & Financial Services/Office of Information Technology (hereinafter called "Department") and the United States Cellular Corporation, on behalf of itself and its FCC licensed subsidiaries operating in the State of Maine (hereinafter "U.S. Cellular" or "Contractor") is hereby amended as set forth below.

1. Contract Extension. The Parties agree that per the RFP Paragraph 2.14-Term, the Department executes the first extension of two to extend the end date of the contract from May 17, 2012 to May 17, 2014.

2. Rider A, Specifications of Work to Be Performed – Attachment A. The Parties agree that Attachment A to Rider A of the Contract will be deleted in its entirety and will be replaced with the new Attachment A, attached hereto. Contractor will work with Department to promptly transition active accounts to the updated rate plans in Attachment A.

3. In-Building Repeater Equipment. Pursuant to Rider B, Section 7, Changes in the Work, Contractor will provide the Department of Environmental Protection on 312 Canco Road in Portland, ME an in-building Repeater System (equipment) valued at approximately \$12,000.00. The System is anticipated to significantly increase productivity and associate efficiencies for more than 60 State employees and transients that visit this location daily. Contractor will remove repeater equipment from the existing Office of Information Technology and Maine Revenue Services office building at 26 Edison Drive when OIT/MRS vacate the space, estimated to be December 2012. U.S. Cellular shall install repeater equipment in new OIT/MRS office space, located on Commerce Drive in Augusta, Maine, if a coverage study identifies that such Repeater System is needed to maintain the performance and reliability of Contractor's services in the new OIT/MRS office space.

Department will provide access to premises and support as needed to allow Contractor to remove and install Repeater Systems. Department acknowledges that, pursuant to Section 22.383 of the FCC's Rules (47 C.F.R. Section 22.383), only FCC licensees are authorized to install and operate any "in building radiation systems" or "In Building Repeater Systems" as defined in Section 22.99 of the FCC's Rules (47 C.F.R. Section 22.99) and that the installation and operation of any such Repeater System can take place only with Contractor's consent and under its supervision and control. During the term of this Agreement, Department shall not install on its premises any such Repeater System without Contractor's prior written consent.

4. There will be no automatic renewal of services. Contract will only be renewed upon written agreement of the Parties.

All other terms and conditions of the original Contract dated May 17, 2007 and amendment remain in full force and effect.

In WITNESS WHEREOF, the Department and the Contractor by their duly authorized representatives have executed this amendment in 3 originals as of the day and year first above written.

A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Lists of Parties Excluded from Procurement or Nonprocurement Programs.
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the State may terminate this transaction for cause or default.

State of Maine Waiver of Competitive Bidding Request Form (Formerly Sole Source Authorization Form)

Please note that the following four points below (#2 through 5) all require a response.

2. Description of Specific Need

Please identify, and fully describe, the specific problem, requirement, or need the resulting non-competitive contract would address and which makes the goods or services necessary. Explain how the requesting Department determined that the goods or services are critical and/or essential to agency responsibilities or operations.

The State of Maine is very dependent on wireless services from basic cellular service to smartphone services. State of Maine employees rely on wireless service for communication on a daily basis. Voice services, messaging services, and access to state applications are handled through wireless services.

The contract includes wireless voice, broadband/data, equipment and accessories. Contract extension to coordinate contract service end date of June 30, 2019 with NASPO-WSCA Wireless Communications agreements. The State of Maine has Participating Addendums with other carriers.

Contract extension to continue voice and data cell phone service to State of Maine accounts with US Cellular. Contract services and pricing is also available and used by other State of Maine public entities such as the University System.

3. Availability of other Public Resources

Please explain how the requesting Department concluded that sufficient staffing, resources, or expertise is not available within the State of Maine's government, or other governmental entities (local, other state, or federal agencies) external to the requesting Department, which would be able to address the identified need more efficiently and effectively than the identified vendor.

No public resource provides these services.

4. Cost

Since a waiver of competitive bidding is being requested for this procurement, please explain how the requesting Department concluded the negotiated costs, fees, or rates are **fair and reasonable**.

The State of Maine currently has 3 wireless service carriers under contract: AT&T Mobile, Verizon Wireless and US Cellular. Plan rates for each carrier are available through OIT's service catalog. Plan coverage as well as cost are taken into consideration when agencies determine the best plan for any individual within their department requiring wireless services.

US Cellular is offering more plans and pricing options for agencies.

5. Future Competition

Please describe potential opportunities which may be available to foster competition for these goods or services in the future.

State of Maine Waiver of Competitive Bidding Request Form (Formerly Sole Source Authorization Form)

It is expected that US Cellular will participate in the next Wireless Services RFP conducted by NASPO which should occur in early 2019.

Please note that only one of the two points below ("Uniqueness" or "Timeframe") requires a response. Requesting Departments are not required to respond to both points.

6. Uniqueness

Please explain if the goods or services required are unique to a specific vendor. Describe the unique qualifications, abilities, and/or expertise of the vendor and how those particular unique factors address the specific need identified above. If the vendor has unique equipment, facilities, or proprietary data, also explain the necessity of these particular unique assets.

US Cellular offers the best wireless coverage in many areas of the State of Maine. For the past 4 years, agencies have had options to use other carriers but many customers stay with US Cellular for service performance and plan pricing.

The State of Maine issued an RFP in 2007 and awarded the contract to **one** carrier - US Cellular. The contract for services was for a 5 year term with two 2 year extensions. US Cellular's current contract expires in October, 2016.

In 2012, it was determined that it would be beneficial to the state to have alternative providers beyond US Cellular. Issues had arisen on geographic signal coverage in some areas of the state, international service availability and the desire of users to have a specific phone model. Since the Western State Cooperative Alliance (WSCA) had issued an RFP in 2011, the State of Maine entered into Participating Agreements with both Verizon Wireless and AT&T Mobile for service in November 2012. The NASPO AT&T and Verizon initial contract period ended in October 2016. NASPO just recently renewed the contracts (which Maine participates in) to take advantage of the final extension - bringing the contract end date to June 30, 2019.

This request extends the current US Cellular contract to the same contract end date as Verizon Wireless and AT&T making all services available to State of Maine users and expiring in June 2019. An RFP is expected to be issued through NASPO in 2019 when US Cellular will participate.

7. Timeframe

Please explain if time is of the essence and an emergency exists which requires the immediate procurement of goods or services. Describe the nature of this emergency, provide the date by which the goods or services must be delivered, and explain how that date was determined and its significance (i.e. impact if delayed beyond this date). Also, provide information as to how it was determined this vendor is the best option to address this time-sensitive procurement.

Signature of requesting Department's Commissioner or Chief Executive (or designee within the Commissioner's Office):	<i>By signing below, I signify that my Department requests, and I approve of, this Waiver of Competitive Bidding.</i>
