**Re: MONTGOMERY DAM REPAIRS**

Dear Sam:

On October 15, 1999 you wrote to me indicating that to continue the re-pointing of the interior wall of the Montgomery Dam, starting from the work completed last fall and continuing through the sluice gate to the edge of the waterfall, would cost an estimated \$2,800.

Thank you for that estimate. Your estimate of the cost of the project falls within the funds we have available to complete it, so please proceed to do the work at your convenience. The only restriction is that it's best not to lower the water level behind the Dam from Memorial Day to Labor Day, because the downtown businesses always complain that summer visitors count on seeing the water flowing over the falls.

If you have any questions, please give me a call.

Sincerely,

Roger A. Moody  
Town Manager
