PUBLIC NOTICES

Public Notices

Public Notices are a permanent and independent record of government and court actions. These include state and local government meetings, rule making, available contracts, zoning changes, and many more, as required by law. In addition, parties to some court proceedings, such as foreclosures, probate, and estate actions are required to publish notices to ensure notification of affected parties, as well as the general public. These notices also alert business owners, large and small, to potential government contractual jobs, helping to ensure economic activity across a level playing field. Public notices have existed to ensure transparency in all levels of government since the founding of the United States.

State and local notices are published in Maine newspapers and are also recorded at mainenotices.com, where anyone can browse or search notices, and sign up to receive email alerts when relevant notices appear.

Subject: CZMA Determination for the Lewiston Falls Hydroelectric Project (FERC No. 2302)

Dear Mr. Burrowes:

Brookfield White Pine Hydro (BWPH) owns and operates the Lewiston Falls Hydroelectric Project (FERC No. 2302) located on the Androscoggin River at river mile 30.8 in Lewiston and Auburn, Maine. The project also includes a small area that encompasses the Durham Boat Launch, a small recreation site located approximately 7 miles downstream of the dam. (see Attachment 1). As you know, there are also three separate hydroelectric projects located downstream of the Lewiston Falls Project; the Worumbo Project, the Pejepscot Project, and Brunswick Project, which is the first hydroelectric project on the Androscoggin River.

The current Federal Energy Regulatory Commission (FERC) license for the Lewiston Falls Project expires on August 31, 2026. Accordingly, BWPH filed an application for a new license for the Project with the FERC in August 2024. FERC recently issued a Ready for Environmental Analyses (REA) Notice on May 15, 2025. An application for Water Quality Certification will now follow, under Section 401 of the Clean Water Act, and will be submitted to the Maine Department of Environmental Protection (MDEP) on or before the deadline of July 14, 2025. In accordance with the Coastal Zone Management Act (CZMA), BWPH must identify whether the Project being relicensed is within Maine's designated coastal zone and the jurisdiction of Maine's Coastal Program (MCP). Additionally, if the Lewiston Falls Project were within MCP's jurisdiction, then BWPH would need to apply for a CZMA Consistency Certification.

It is our understanding that the inland boundary of the Coastal Zone in Maine is located at the Pejepscot Project <sup>1</sup> which is located at river mile 14, well downstream of the Lewiston Falls Project. We therefore understand that the Project is not within Maine's designated coastal

zone and that BWPH does not need to apply for a CZMA Consistency Certification for the Lewiston Falls Project from your office. We would appreciate receipt of a letter or email from your office verifying that our understanding as stated above is correct or providing alternative guidance if further action is necessary to comply with Maine's Coastal Program.

If you require additional information, please contact me by phone at (207) 577-4536 or by email at Luke. Anderson @brookfieldrenewable.com.

Sincerely,

Hi Luke,

You are correct that the Lewiston Falls Hydroelectric Project is not within Maine's coastal zone and does not need federal consistency review pursuant to the Coastal Zone Management Act.

Feel free to reach out if you have any questions - thanks,

Erin

Good afternoon, Erin,

Please find attached a recent letter transmitted by the email request below to Todd Burrows, who I understand is no longer with the Maine Coastal Program, requesting confirmation as to whether Brookfields Lewiston Falls Hydroelectric Project (FERC No. 2302) located on the Androscoggin River and which is currently undergoing relicensing, is within Maine's designated coastal zone.

If you require additional information, please contact me by phone at (207) 577-4536 or by email at Luke. Anderson @brookfieldrenewable.com.
