Hi Laura,

After extensive searching in the ATS program, I was unable to locate an L number for Rip Dam. I saw in the app it said it was an application for a new license, so I supplied it a new L number. If you find it should be a sequence on an existing L number, please let me know and I can make that change pretty easily.

Ref: L31544-33-A-N ATS # 93858

Thank you,
Jess
