Karen,

I was just informed of the extended comment time on the proposed expansion of the Juniper Ridge landfill.

With the proximity to two bodies of water that flow into the river AND the proximity of the community of the Penobscot Nation - all in line of PFSA - forever chemical known to be detrimental to human and animal life.

My comment is NO. Also wondering about processes to treat waste before putting in any area for landfill.

Thank you for your work to find a just solution that works for all and shapes processes that protect us from harmful pollution and leakage.

Sincerely,

Pat Cannon
