

SYMBOL KEY

Greatest exceedance of regulatory PFAS value (USEPA MCL, 2024):

- Not Sampled
- Non-Detect
- Below MCL
- Above MCL
- Above 10x MCL
- Above 100x MCL
- Above 1000x MCL

Modeled Bedrock Groundwater Contour

Bedrock Groundwater Flow Direction

Water Features:

- Stream
- Surface Water Bodies

Potential Aqueous Film Forming Foam Release Area

Flow Field Boundary

Former Installation Boundary

Symbology note:

Bedrock wells depicted as half circles to indicate depth.

- Shallow Bedrock Well
- Deep Bedrock Well

Label notes:

White Border - Existing Monitoring Wells

Yellow Border - Monitoring wells installed during the Remedial Investigation

*Co-located wells: Higher sample result depicted

Notes:

ng/L - nanograms per liter

PFAS - per and polyfluoroalkyl substances

USEPA MCL - United States Environmental Protection Agency Maximum Contaminant Level

Figure depicts most recent sampling result for each location.

**See Table 1-3 for more information about screening levels
