Subject: Concern about mining rules
Date: Wednesday, November 30, 2016 5:51:10 AM

Hi,

I am writing to express strong concern about the proposed mining rules. Maine's water resources need to be protect and this mining rule does not do this properly.

Unfortunately, the mining rules still pose a threat to Maine's water, wildlife, and the jobs that depend on Maine resources. The rules would still allow mining on public lands and under lakes, rivers, and coastal waters. They would also allow mines in floodplains and do not require adequate financial assurance That means taxpayers would likely pay for any catastrophic cleanup.

This is not in the best interest of Mainers and I do not support this rule.

Sincerely,
Sarah Lozanova
