Subject: Our opposition to the latest mining changes
Date: Monday, December 12, 2016 8:48:15 PM

Dear Sir,

My wife and I continue to oppose these latest changes to the existing mining regulations. It just does not go far enough in protecting both the environment and the tax payer when a catastrophe occurs. Being that mining in such a fragile area as Bald Mountain, there is a good chance that would happen. Don't want to make the long trip down to Augusta from Easton but will if need be.

Sincerely, John & Regine McIntyre
